Introduction

WhatsApp is a communication platform owned by Meta. WhatsApp allows you to send messages, make voice calls, and video calls. You can share images, location, and documents with your friends across the globe. Furthermore, you can create/join in communities and groups. You can send and receive money.

WhatsApp Business helps you to communicate with customers from a single device. The WhatsApp Business enables you to reach hundreds of customers, is free to use and offers customization and integration with other tools.

This user guide describes how to access and use WhatsApp.

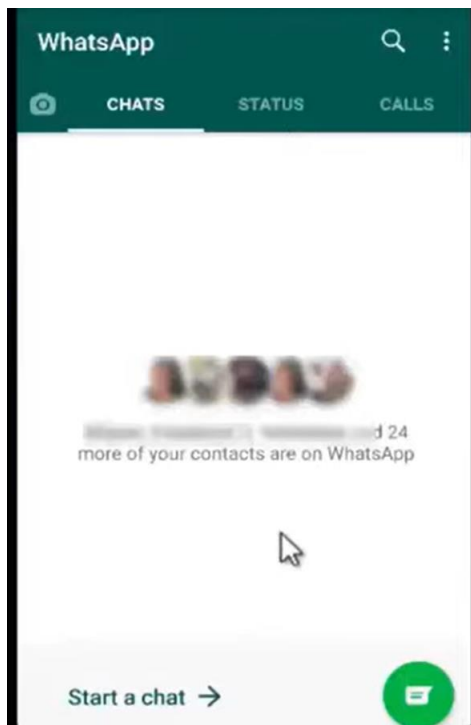

Prerequisites

- Android/ iPhone running OS Mobile phone
- Contact numbers.

Exploring WhatsApp

WhatsApp has multiple features allows you to message privately, stay connected, and build communities. Furthermore it has following features:

- Camera
- Chats
- Status
- Voice and Video Calls.

Camera

Camera feature allows you to take photos, videos and share them instantly without saving it to the gallery.

Chats

You can send and receive end-to-end encrypted messages using **Chats**. You can share media files, create groups, and have conversations with multiple people at the same time.

Status

Status allows you to post photos, GIFs, and messages without sending them as individual messages.

Calls

Calls allows you to make voice calls and face-to-face video calls with many people at the same time.

Getting started

After installation, create an account to access WhatsApp.

Signing-up

This section describes how to sign-up in WhatsApp.

To sign up,

1. Open WhatsApp, **Welcome to WhatsApp** screen appears.
2. Select **AGREE AND CONTINUE** to accept the terms and services. **Enter your phone number** screen appears.
3. Select your country, country code, enter phone number and select **NEXT. We will be verifying the phone number** pop-up appears with the entered number.
4. (Optional) If you want to edit the phone number, then select **EDIT** and re-enter the number.
5. Select **OK**. A verification code is sent to your phone number and WhatsApp verifies the code automatically.
6. Select **CONTINUE** to provide WhatsApp the access to your contacts and media files.
7. Select **Allow** to access required phone permissions. **Profile info** page opens.
Note: You can add a profile picture in the later stages also.
8. (Optional) On **Profile info** page, perform the following steps:
 - Select camera and add your profile picture. A new **Profile photo** screen appears.
 - Select either **Gallery** or **Camera** and select your required picture.
9. On **Profile info** page, in the **Type your name here** field enter your name and select **Next**.

Your account is created and the home page is displayed.
